

Fumigation obligation against the Brown Marmorated Stink Bug

The Australian and New Zealand authorities have introduced a temporary fumigation obligation for endangered goods, as the Brown Marmorated Stink Bug is considered an agricultural pest and has also been detected in Germany, among other places.

Shipments from September 1st 2024 till April 30th 2025

Australia and New Zealand have different exit times

Australia: Shipments from Germany from September 1st until departure from Germany April 30th

New Zealand: Shipments from Germany from September 1st till ETA New Zealand April 30th

- LCL cargo will already be fumigated before September 1st
- packages originated from high risk countries, which need to be fumigated, must no longer be sealed with foil, wrapped or covered, amongs other things
